

# **7-Port USB Charging Station with Apple Watch Stand User Reference Guide**

## Key Features & Benefits

---

- Power and charge up to 7 USB ports powered devices simultaneously
- USB charging port integrated with auto detection smart IC for maximum charging efficiency
- 2.4A (max) power output supplied USB port for rapid charging of iPhones, iPads, smartphones, tablets and other compatible USB powered devices
- 6 individual open slots fit and hold most tablets or smartphones, ideal as a space-saving charging solution
- Apple Watch Stand - The watch stand is designed to seamlessly accommodate the Apple Watch charging cable
- Includes 65W high performance power adapter with Over-Current, Over-Voltage, Over-Charge, Short-Circuit safety protections to safeguard all of your connected devices

## Specifications

---

Input	AC 100-240V, 50/60Hz
Output	DC 19V/3.42A, 64.98W
Total Charging Output	DC 5V/13A (Max.)
USB Port Output	DC 5V/2.4A (Max.)
Dimensions	8.66" (W) x 5.43" (H) x 4.33" (D)
Weight	1lbs
Operating Temperature	32 to 104 degrees F
Storage Temperature	14 to 122 degrees F

## Package Contents

---

- *7-Port USB Charging Station with Apple Watch Stand*
- Apple Watch Stand
- AC Power Adapter
- User Reference Guide

## Product Layout

---

Figure 1: 7-Port USB Charging Station with Apple Watch Stand

- **Apple Watch Stand (removable):** Holds your Apple Watch and its charger while charging (optional)
- **Power Switch:** Turns on / off the charging station

Figure 2: Rear side

- **Power Jack:** Plug the included power supply here

- **USB Charging Ports (x7):** Connect to charge your smartphones, tablets and other USB-powered devices

## Power Jack

Refer to below table for the specifications of the power jack.

Outside diameter (OD)	Inside diameter (ID)	Plug length (L)	Negative / Positive
5.5(mm)	2.5(mm)	10(mm)	 *Center pin for positive voltage and the outer shield for negative voltage

**Table 1: Power Jack Specifications**

Figure 2: Power Supply & AC Power Cord

## Installation

1. Insert the AC power cord into the power supply.
2. Insert the power supply's plug into the charging station's power jack.
3. Plug the power supply into a reliable 100V-240V wall outlet.
4. Press the **Power Switch** to power on the charging station and verify the blue LED is lit.
5. Plug in your devices with their USB charging cables.  
**Note:** USB charging cables are not included.

## **FAQ & Solutions**

If the charging station isn't functioning properly:

- Make sure the charging station is plugged into a functioning wall outlet
- Make sure the power supply's green LED is lit to ensure it's receiving power
- Firmly insert the USB charging cable into both the charging station and your USB device
- Keep the total wattage for all connected USB devices under 65W
- Check the power switch LED to make sure it's lit

## **Safety Notice**

- Check that the wall outlet you are using is within the AC 100V - 240V range
- Do not place the charging station on heated seats or against other heated sources
- Do not attempt to replace any part of the charging station on your own
- Do not expose the charging station to liquids or excessive heat
- Do not use any corrosive cleaning substances with the charging station
- Keep out of reach of children

## **Warranty Statement**

---

This warranty covers the original purchaser and guarantees that the product be free of any defects in materials or workmanship for one (1) year from the date of product purchase.

## **Copyright Statement**
